

# 3 Phases Renewables

## 3 PHASES RENEWABLES GREEN ELECTRICITY PRODUCT INFORMATION

3 Phases Green Electricity Product is certified by Green-e Energy. This document provides detailed information about the green power product, including the Product Content Label and the program’s Price, Terms and Conditions. Green-e Energy certifies that 3 Phases Renewables (“3 Phases”) meets the minimum environmental and consumer protection standards established by the non-profit Center for Resource Solutions. For more information on Green-e Energy certification requirements, call 1-888-63-GREEN or visit [www.green-e.org](http://www.green-e.org).

PRICE, TERMS, AND CONDITIONS	
	3 Phases Green Electricity Product (the “Product”) is Green-e Energy certified, and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at <a href="http://www.green-e.org">www.green-e.org</a> .
Company	3 Phases Renewables Inc.
Whom should I contact for more information?	You can visit <a href="http://www.3PhasesRenewables.com">www.3PhasesRenewables.com</a> or call (310) 939-1283 or toll-free (877) 225-9802, or via email at <a href="mailto:info@3phasesrenewables.com">info@3phasesrenewables.com</a>
How will I be billed?	You will receive one bill from your utility for the distribution services and another from 3 Phases Renewables for the electricity. The electricity charges are exclusive of any applicable federal, state, and local taxes and charges. You will be billed on a monthly basis.
How will my bill be calculated?	The electricity portion of your bill will be calculated based on the electricity price set forth in your agreement. In the event there are any changes to the electricity rate, you will be notified of such changes.
What sources will be used in my certified product?	The Product will come from new facilities in the Western grid (WECC).
What other fees might I be charged?	Delinquent bills may be assessed a late fee. See your service agreement terms for details.
What length of agreement/contract is required?	The minimum length of agreement for most customers is twelve months.
What if I want to terminate my agreement early?	You will be required to pay the full amount under your contract, even if you cancel early, unless otherwise specified in your agreement.

## 2020 PROSPECTIVE PRODUCT CONTENT LABEL <sup>1</sup>

3 Phases Green Electricity Product provides 35% of your electricity usage with new Green-e Energy certified renewable energy above and beyond Oregon's mandated Renewable Portfolio Standard (RPS) renewable amount. The non-certified percentage of this product may not meet the Green-e Energy standard eligibility criteria on energy resource type, product specification disclosure requirements, and other rules concerning renewable energy defined by the Green-e Energy National Standard. However, 15% of your energy supply will meet the requirements for the Oregon RPS. In 2020, the prospective content for 3 Phases Green Electricity Product will be as follows:

Green-e Energy Certified New <sup>2</sup> Renewables in 3 Phases Green Electricity Product		Generation Location
-Biomass	%	
-Geothermal	%	
-Low impact hydroelectric <sup>3</sup>	%	
-Solar	35%	Oregon and/or Idaho
-Wind	%	
-Total Oregon Renewable Portfolio Standard amount (Non-Green-e certified)	15%	Washington/Oregon border
<b>Total Green-e Energy Certified New Renewables</b>	<b>35%</b>	

1. These figures reflect the renewables that we contracted to provide. Actual figures may vary according to resources availability. We will annually report to you before August 1 of next year in the form of a Historical Product Content Label the actual resource mix of electricity you purchased.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

3. Eligible hydroelectric facilities are defined in the Green-e Energy National Standard (<http://www.green-e.org/standard>) and include facilities certified by the Low Impact Hydropower Institute (LIHI) ([www.lowimpacthydro.org](http://www.lowimpacthydro.org)) or EcoLogo ([www.ecologo.org](http://www.ecologo.org)); and facilities comprised of a turbine in a pipeline or a turbine in an irrigation canal.

For comparison, the average mix of resources supplying in Oregon includes: Coal (31.89%), Nuclear (3.25%), Natural Gas (16.58%), Hydroelectric (40.47%), Wind (6.49%), Biomass (0.38%), Biogas (0.12%), Landfill Gases (0.06%), Geothermal (0.12%), Solar (0.27%), Petroleum (0.08%), Waste (0.10%), and Other (0.19%). This resource mix was prepared from the Oregon Department of Energy (ODOE).

3 Phases Green Electricity Product is Green-e Energy certified, and meets the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at [www.green-e.org](http://www.green-e.org).

For specific information about this product, please contact 3 Phases Renewables by phone at 310.939.1283, or at <https://3phasesrenewables.com/>

The remaining 15 % of electricity is not Green-e Energy certified. However, 15 % of your energy supply will meet the requirements of the Oregon RPS.

2020 Oregon Renewable Portfolio Standard (RPS) Resources		Generation Location
-Wind	%	
-Small Hydro	15 %	WA/OR border
-Solar	%	
-Biogas	%	
-Total (Oregon RPS Power Mix)	15 %
